

## What's been going on in February

February has absolutely flown by here at Attlebridge Concrete!!

We have several large projects on the go which has kept everyone busy and out of mischief!!

Some of the team visited Houghton Hall towards the end of the month. We had been invited to go and see how the installation of our plinths were coming along.

We can't see wait to see the completed installation!

## Landscaping for 2024

For this landscaping season, we are able to offer our customers a new, larger range of luxury outdoor porcelain tiles, and also traditional sandstones and limestones.

We still continue to offer our previous porcelain styles, and will also offer new colours such as Rustic Slate; new ranges such as Dolomia and Oakwood; and Décor Tiles.

All are available at competitive prices and come from a UK based warehouse, making deliveries fast and convenient.

Rustic Slate

Dolomia

Oakwood

Décor Tiles

## Pictures of your finished projects

When we complete a project for a client, sadly, we very rarely get to see the finished installation. It really is good to see what our products look like in situ, and the team love to see their hard work installed and being shown off to its best.

If you have any pictures of your finished projects that you would like to share with us, we would be delighted to see them. Please email them in to us at [info@attlebridgeconcrete.co.uk](mailto:info@attlebridgeconcrete.co.uk) or via WhatsApp on 07384 382659.
