

## What's been going on in May

Looking back over May, it's been quite a normal month for ACP. Work has been ticking over nicely, keeping everyone busy.

The lads deserve a shout out, after averting a disaster with our main mixer.

Our usual mixer expert was indisposed with a fractured foot, but our team managed to diagnose and repair the problem. Well done!

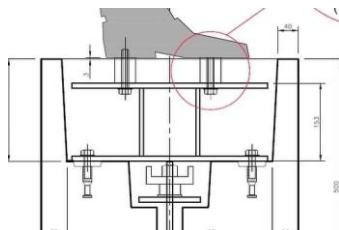

## Time Horizon by Sir Anthony Gormley

Over the past few months, we have been keeping you up to date with our progress making bespoke plinths for an art installation at Houghton Hall. This was for renowned artist Sir Anthony Gormley.

The plinths support life sized cast iron sculptures of Sir Anthony Gormley, and these are installed throughout the grounds of Houghton Hall. In all we produced 120 plinths.

This was an exciting project for us to be involved in, and we are thrilled with the results.
